Description :

- **WENGER Gas fired, 3-Pass, Screen Belt Drying System;**

Complete with outfeed components and belt screen. (These are not shown in the photos.)

- No input conveyors.

NOTES:

● This system was utilized very little as the owners had another type of dryer system. It probably has no more than (3) months of actual operating use.

● The feeding section, cooling section, output section, and conveyor belt have been removed from the exit end of the system to make room for other equipment subsequently installed. However, those items are still at the site although not shown in the photos.
