MPM).

- **Operator & Machine Control:**

HOMAG "powerTouch2" PC Front-End with "CADmatic 5.0" Operating System "designed for industrial environments"; virtually unlimited cutting dimensions memory.

21" Full HD widescreen "Touch-Screen" monitor with multi-touch display, online operation from an office PC is possible. All mounted into dust sealed, air-conditioned control cabinet.

"Real-Time" Cutting sequences with a new 3D assistance graphic supports the operator and is intuitive to operate, which shortens the training period and reduces errors to a minimum. This results in efficient processes and steady output.

Simple handling via tapping and swiping (touch functions) with Quick change between the individual sections

CADmatic 5.0 is Tapio compatible & open for communication with other machines and software solutions.

The SAWTEQ B-300 "IntelliDivide" optimizing software is tapio-ready from installed software or directly from the tapio cloud, allowing "IntelliDivide" to recognize the machine configuration of your saw and take it into consideration for every optimization run in the cloud, completely automatically & you have the choice
