Description :

- **CAM-WOOD WS-M1000 NAX Planer Sander**
 - 2 Heads with 39.4" width capacity planer head and combination sanding head
- Features:**
- This machine is especially designed for take off heavy materials such as glue panel, bend board, rough lumber.
 - **The first head** is a knife planer head, with 25 HP motor. The spiral planer cutterhead is fitted with 14 x 14 mm, four edge throw away Tungsten Carbide knife inserts, providing superior chip removal rate, minimum noise, and extremely smooth cutting effect. Changing knife inserts are conveniently done without removing the cutterhead.

**Machinery for the Woodworking, Stone,
Glass, Plastic, and Metalworking Industries**

- **The second head** is a combination of drum and platen driven by a 20 HP motor, belt size 40.5" x 78 3/4". (1030mm X 2000 mm)
- Anti-kickback fingers, mounted at the infeed of the machine, this anti-kickback finger gives a safety guard for the operator.
- Insufficient pressure protection, in case insufficient working air pressure occurs, the machine brakes automatically for safety guard.
Irreversible running of pressure roller, runs a single direction only, giving an additional safety guard for panel kickback.
- Motorized elevation of conveyor table (micro-computer controlled with digital readout), it accurately displays the position of the conveyor table and automatically moves to the setting thickness for planing, sanding.
- Panel cleaning brush roller; built at outfeed end of the machine, this cleaning brush roller cleans the powder on the sanded panel.
- Hold-down plate is hard chrome treated for maximum wear resistance.

Technical Specification:

- Working width 39.4" (1000 mm).
- Working thickness up to 6 1/4".
- Minimum working length 21".
- Feed speed 10 to 90 FPM inverted driven by 3 HP motor.
- Table raised and lowered by 1/2 HP motor.
