Description :

- **2QUICK 14-Section Pneumatic Clamp Carrier with 10-1/2' width capacity**
 With (8) Standard zinc plated clamps per section (112) clamps total), 38" opening on clamps
- Standard Features include:**
- Clamps jaws are 2-1/2" high x 4-3/4" wide with 1° inward draft to keep stock securely held down. Clamps use 3/4" dia. full-length screws; corrosion resistant, zinc plated, full box frame. For face gluing, Rocking Plates available as optional equipment
 - **Panel Flattener** with easy-to-use controls.
 - **Pneumatic Clamp Tightener;** 3,000 RPM air wrench is 5 to 10 times faster than competitive tighteners; a two-handed, trigger-activated tightener is more confidence-inspiring than the old ergonomically awkward "swing-style" clamp tighteners. Fast tightening and full-length clamp screws eliminate the need for manual adjustment of rear clamp jaws.

Sales - Liquidations - Auctions - Appraisals - Consulting

**Machinery for the Woodworking, Stone,
Glass, Plastic, and Metalworking Industries**

- **Electric Motor Rotation; push button, automatic cycle** with indexing.
- Automatic Rotation Cycle includes the entire sequence; reverse rotation, front-rest out, forward rotation, front-rest in, and lay clamps on front rest. Perfectly! Every time!

Complete with:

- Foot levelers, coiled air lines, flexible conduit for electric wires, automatic air line oiler, high-quality urethane finish coating, and toolbox with spare parts & tools.
- **A 14-Section Clamp will produce approx. 300 panels**
