Description :

- **PINSKE EDGE 5200 Drawer Notcher;**

Machine is designed to notch your cabinet drawer boxes for undermount hardware. It is specifically designed for BLUM, but it also works with many other brands.

- This machine cuts the recess and drills the hole in the drawer box all at one time.
- Simply set the drawer box over the cutter and against a side fence. Push the drawer box against the back fence activating the machine.
- Step on the foot control which moves the cutter up into the bottom of the drawer box at the same time as the drill moves inward to drill the holes in the drawer's back.

The complete process will only take (10) seconds!
