**Machinery for the Woodworking, Stone,
Glass, Plastic, and Metalworking Industries**

- Machine is operated with a central control panel and gun timing is controlled by a PLC that times the spray guns in relation to the length of the work piece and feed speed.
- PLC Records the number of workpieces and total linear feet processed in session.
- The machine is set up with infeed & outfeed conveyors that operate at any speed between 2- - 100 mpm (65 - 325 FPM) and is made up of Antistatic and Antisolvent belts and intermediate steel rollers between Spray Stations.
- 300mm (11.8" Dia.), 1.5 HP exhaust fan rated at 4,000 cbm/Hr.
- This Sprayer integrates easily into any line whether as a primary unit or as an intermediate step.
- Overall length is just under 10'.

The Machine is priced with no guns or supply installed, these will need to be added by the buyer or a separate quote can be requested for guns and supply pumps.

Working dimensions:

- Length: Min. 800 mm / max. infinite.
- Width: Min. 15 / 300 mm.
- Height: Min. 15 mm / max. 100 mm.
- Height of worktable: 900 mm.
- Compressed air consumption - NI/min 1,500 – 2,000.

Optional:

● InHand Networks Industrial Router
● Overall machine dimensions and weight
● Teleservice module for remote troubleshooting

Price includes the following options:

● Stainless Steel carriage
● Teleservice module for remote service.
