

Machinery for the Woodworking, Stone,
Glass, Plastic, and Metalworking Industries

Date : 07/05/2025 - 8:09 PM *
EXF # : PT-010015
Category : PELLET MFG. EQUIPMENT
Brand / Model : PELLET.TOWER "SINGLE TOWER"
Machine Type : PELLET MFG SYSTEM
Year of Mfg. : 2025
Condition : Brand New w/Warranty
Elect / Voltage : 230/460 V, 60 Cy, 3 Ph.
Special Note :

FOB / Region : MIDWEST
Appr. Repl. Cost. : \$ 2,750,000
Price : \$ 0 *
Comment : Depending on the material,
add a Chipper or Grinde
Leasing : Contact NCL for quote

* Pricing is valid at the time of printing and subject to change at any time.

Description :

- **PELLET.TOWER Pellet Manufacturing System.**
- Complete modular, vertically designed Pellet Manufacturing System within a 65' tall free-standing tower containing all the Pellet Manufacturing equipment necessary on a 17' x 20' concrete pad including all pellet producing material handling & conveyor systems.
- **25,000 - 30,000 Tons annual pellet capacity** from wood or agricultural waste streams.
- **Tower includes: (6) Levels, vertically integrated on top of each other;** an operator monitoring station is located at the ground level, processing equipment is in the top (5) levels.
- Each level has direct "walk-up" service and maintenance access without personal lifts, ladders, or other access devices.
- Complete integration of electric power supply & panels, Compressed Air, Air Filters, and Dust Collection, with safety controls linked throughout the automated system.

**Machinery for the Woodworking, Stone,
Glass, Plastic, and Metalworking Industries**

- System designed to **run and be maintained by (1) on-site operator or off-site** with remote PC monitoring of the entire process.
- Each level includes high quality brand name equipment: Hammer Mill at the beginning of the process, Material Holding & Dosing Bin, as well as the Dust Collection & Air Handling system at the very top of the Tower.
- Binding Agent System, multiple Foreign Material Separators, Water Dosing with moisture control; Ripening Silo; high production Pellet Mill, Pellet Cooler, final Screening Station on levels below.
- Includes following auxiliary equipment: **Process Control with full Visualization (on Monitors)**, Fire Protection, Explosion Prevention, Dust Collection, Spark Detection, Water Distribution, Compressed Air, and a Central Vacuum Cleaning System that makes all a clean enclosed work environment.
- **The 6-levels are in a completely self-contained steel structure**, enclosed with insulated sandwich panels and weatherproof cladding.
- Post-installation, in case of relocation, the Tower can be divided into (4) units for transportation on flatbed trailers; dismantling & reconstruction requires approx.(6) weeks.

Pricing includes "delivery to site, installation & training". Please ask for full quote with all specifics - and geared toward your location, material, and application!
