

Machinery for the Woodworking, Stone,
Glass, Plastic, and Metalworking Industries

Date : 04/18/2024 - 10:37 PM *
EXF # : TE-300016
Category : TENONERS-DOUBLE & SINGLE
Brand / Model : CAM-WOOD "SET-812SCCWWX"
Machine Type : DOUBLE END TENONER W/SANDING
Year of Mfg. : 2024
Condition : Brand New w/Warranty
Elect / Voltage : 230 or 460 V, 60 Cy, 3 Ph
Special Note :

FOB / Region : WEST COAST
Appr. Repl. Cost. : \$ 166,500
Price : **\$ 165,500 ***
Comment : Heavy duty series of double end tenoner - flexible
Leasing : Lease for \$ 3,289/Mo. at NCL

Description :

- **CAM-WOOD SET-812 SCCWW, Double End Tenoner with Sanding**

12-Head Double End Tenoner, suitable for mass production in a woodworking factory, processing double end cutting, tenoning, grooving, moulding, and sanding.

Features:

- Automatic high-speed through feed device allows for perfect finishing at speeds ranging from 20 - 75 FPM.
- In addition to the double-end cutting, all the settings and other processing can also be executed with high accuracy.
- Since the machine is so versatile, we believe it will be one of the most satisfactory machines for bulk production lumber-processing factories.

Sales - Liquidations - Auctions - Appraisals - Consulting

**Machinery for the Woodworking, Stone,
Glass, Plastic, and Metalworking Industries**

- The specially designed numeric controller allows quick setting of length sizes for tolerance within 0.004".
- The numeric control system provides highly accurate settings, and a special memory retains all settings, even if there is a power failure.
- Variable speed, through feed, wide rubber pads with spring-loaded dogs located at 16" center distance with conveyor speed for the best finish selections.
- Heavy-duty powered pressure rolls at top of the wide width conveyor holds the material tight to prevent sliding during the cutting and sanding process.
- Shaper head can be moved up & down, forward & backward.
- Workstations are powered by industrial motors for full power cutting and utilizing the entire sanding capacity range.
- Two sanding heads can use brush, flap wheel or profile disc for fine finish with one pass.
- Trim saws and sanding heads can be tilted for different angular setup.
- Heavy cast iron base for durability and heavy duty usage.

Specifications:

- Thickness: ½" to 4"
- Length: 10" to 96"
